

Dear friends of Heartcup,

In the spirit of karateka we have decided to launch a special edition of the Heart Cup! Since we have been restricted from travel, we will come to you with an online version that will allow us to admire and discover the place where your heart beats.

Heart Cup 2021 - "Where your heart beats"

Each participant will be asked to choose an outdoor location that brings value to the passion for karate and make it as one with your kata performance.

Whether it is a public place or a private space, we ask you to introduce in a few seconds seconds, the surroundings in which you will perform your kata. Let yourself be inspired by the principle of Master *Gichin Funakoshi*:

"Karate is not only in the dojo".

This special edition of Heart Cup it is not just a return, but a moment of deep reconnection between people, who share the common passion for something that has always made our hearts beat and that has never abandoned us, even in these months of restrictions and isolation: **karate**.

It is time, once again, to share our passion.

We look forward to seeing you at Heart Cup 2021.
